Post Office Box 190010
North Charleston, SC 29419-9010

Dear Mrs. Nwokike:

I have completed my review of the Technical Memorandum, Work Plan for Site Preparation Activities for Phytoremediation Implementation at Operable Unit 4, Naval Training Center Orlando, dated February 7, 2002 (received by e-mail February 7, 2002), prepared and submitted by CH2M Hill Constructors, Inc. Clearing, grubbing, grading and leveling is to be conducted in an upland portion of the site. Approximately 4600 trees are to be planted, including cottonwood (*Populus deltoids*) and a genetically enhanced poplar known as DN-34 (*Populus deltoids* x *P. nigra*) in the upland portion of the site, and Carolina willow (*Salix caroliniana*) in a disturbed wetland along Lake Druid. The work plan adequately describes the activities to be conducted as part of the final remedy at Operable Unit 4.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)921-9991.

Sincerely,

David P. Grabka, P.G.
